***SpinWorks is being distributed as “freeware” in the hope that it will be useful. However:***

***The author disclaims all warranties with regard to this software, including all implied warranties of merchantability and fitness. In no event, shall the author or the University of Manitoba be liable for any special, indirect or consequential damages, or any damages whatsoever resulting from loss of use, data or profits, whether in an action of contract, negligence or other tortuous action, arising out of or in connection with the use or performance of this software.***

***All trademarks mentioned (e.g. XwinNMR, TopSpin, Vnmr(J), Windows, Java, MacOS, etc.) are property of their respective owners.***

Referencing SpinWorks:

Please check the “Instructions to Authors” for whatever journal you are writing for, but it should be something like:

SpinWorks Java, Copyright © 2016  
Kirk Marat  
University of Manitoba

If you make use of the simulation modules (DNMR3, MEXICO, NUMMRIT or SIMPSON) you must, of course, ***reference the original authors work as well***. These references are given in the corresponding section of the manual.

This software may be redistributed, provided that the author and the University are appropriately acknowledged. However, incorporation of any part into any commercial product is strictly prohibited without prior written authorization.
